

MICROCOMPUTER BASED PHOTOGRAPHIC SYSTEM

HIGH REGISTRATION PHOTOMASK MACHINE
AND COMPUTERIZED NUMERICAL CONTROL SYSTEM

10/13/78

ABSTRACT OF THE DISCLOSURE

A machine and a control system are provided for
5 generating high registration photomasks with a contact printing
arrangement. Further, a unique control arrangement is provided
for controlling a machine such as a high registration contact
print machine or other type of machine. In a preferred
embodiment, a control system generates signals to a step and
10 repeat contact printing machine that exposes many prints of
master die images on a photographic film, where these prints
have a high registration characteristic. In a further embodiment
a unique control arrangement is provided for machine control
~~operations.~~
